Text of the Preface to General Grant's Book.

THE CHICAGO STRIKE ENDED

Cheyenne Indians Leave their Reservation and Invade Kansas Murdering People and Destroying Property—An Appeal for Help

NEW YORK, July [illegible]—The Post [illegible] prints the preface to General Grant's forthcoming book, which is as follows:

"Man proposes and God disposes. There are but few important events in the affairs of men brought about by their own choice. Although frequently urged by friends to write my memoirs, I had determined never to do so, nor to write anything for publication. At the age of nearly sixty-[illegible] [illegible] which continued so closely to the house while it did not apparently affect my general health. This made study a pleasant pastime. Shortly after the rascality of a business partner developed itself by the announcement of a failure. This was followed soon after by universal depression of all securities which seemed to threaten the extinction of a good part of my income still retained, and for which I am indebted to the kindly acts of friends. At this juncture the editor of the *Century Magazine* asked me to write a few articles for him. I consented for the money it gave me, for at that moment I was living on borrowed money. The work I found congenial and determined to continue it. The event is an important one for me, for good or evil; I hope for the better.

In preparing these volumes for the public I have entered upon the task with a sincere desire to avoid doing injustice to any one, whether on the national or confederate side, other than the unavoidable injustice of not making mention often where special mention is due. There must be many errors of omission in this work, because the subject is too large to be treated of in two volumes in such a way as to do justice to all the officers and men engaged. There were thousands of instances during the rebellion of individual, company, regimental and brigade deeds of heroism which deserve special mention and are not here alluded to. The troops engaged in them will have to look to detailed reports of their individual commanders for a full history of these deeds.

The first volume, as well as a portion of the second, was written before I had any reason to suppose I was in a critical condition of health. Later I was reduced almost to the point of death, and it became impossible for me to attend to anything for weeks. I have however regained somewhat my strength, and am able often to devote as many hours a day as persons should devote to such work. I would have more hope of satisfying the expectations of the public if I could have allowed myself more time. I have used my best efforts, with the aid of my eldest son, F. D. Grant, assisted by his brothers, to verify the records of every statement given. The comments are my own, and show how I saw the matters treated of, whether others saw them in the same light or not.

With these remarks I present these volumes to the public, asking no favor, but hoping that they will meet the approval of the reader.

U. S. GRANT.

Mt. McGregor, N. Y., 188[illegible].

GENERAL GRANT'S CONDITION.

MOUNT MCGREGOR, N. Y., July 7.—General Grant took food three times last night, but about [illegible] o'clock this morning wrote to Dr. Douglas that his food was growing distasteful. The physician appeared interested, and the sick man hastened to explain that the food was not less palatable, but he believed he was taking more nourishment than he could assimilate, whereupon the nurse was instructed to decrease the quantity given. The constant attendance General Grant is receiving from Dr. Douglas and the nurse, under his direction, has without doubt prolonged the life of the patient. In order to subdue or allay the general's pains so that he may be comfortable it seems necessary that personal attendance should be given about once in three hours. To-day makes the third week of the patient's life on the mountain, and it is undoubtedly true that without almost constant attendance the pains of the disease would have more than [illegible] any improvement that has resulted from the change, and as time progresses [illegible] [illegible] needed.

THE KANSAS FLOOD.

[illegible] Kas., July [illegible] [illegible] damage by flood very great. The Neosho [illegible] feet higher than was ever known before. [illegible] farmers who had their wheat cut in the shock report almost a total loss, while others have lost homes, sheep and cattle, and in many instances houses and fences have been swept away [illegible] barely escaping with their lives. The loss of life has been greater than usual. Three [illegible] persons drowned at Chanute and [illegible] Neosho [illegible] found and others are missing. No attempt has been made by the railroads to cross the Neosho since the 1st inst., and communication is entirely cut off with the east and no mail has been received except from the south since Wednesday. The Missouri Pacific advertised to resume eastern travel this afternoon and transfer by boat at Osage mission. It will be two or three days before travel is resumed.

FAVORABLE REPORTS FROM TEXAS.

GALVESTON, July 7.—The *News* has compiled [illegible] advices from seventy counties, embracing mostly the entire cotton and grain belt of the state. It summarizes the situation in an editorial, which predicts that with no untoward disaster to the cotton crop the state is on the eve of the grandest period of agricultural prosperity which it has ever known, and that general business will sympathize with it. The yield of small grain has never been surpassed. The corn crop also bids fair to be the largest ever known in the state, and while it is too early to predict with certainty, the promises are for a cotton crop variously estimated at 1,700,000 to 1,800,000 bales.

[illegible] MARRIED.

NEW YORK, July 6.—In October, 1880, Miss Emma A. Hastings, of San Francisco, and James O. F. Kelly were married, "in fun," at Allegheny station, Virginia. They never saw each other until June, 1883, at which time the lady was the wife of Winfield Scott Keyes, whom she had married in San Francisco in April, 1881. Kelly at this meeting claimed her as his wife, and Keyes brought suit in San Francisco soon after, to have his marriage to her annulled on the ground that she had before been married to Kelly. Mrs. Keyes brought suit in the state to have her marriage with Kelly declared void, and to-day the supreme court so declared [illegible] free.

THE CAMPAIGN IN PENNSYLVANIA.

PHILADELPHIA, July [illegible]—The *Press* says: The state convention to-morrow will decide whether the republican party shall organize for a [illegible] aggressive, victorious campaign, or whether it shall submit to a dispirited, [illegible] [illegible]

[illegible]

NEW YORK, July [illegible]—A writer in the *Times* says since the Grant & Ward failure Colorado has been [illegible] very considerable benefit from the profits of the Ward family. Large sums have been invested in leading mining property. Denver real estate and large sums in the vicinity of rapidly growing towns. Thousands of dollars are now being expended in constructing lakes, reservoirs and ditches for irrigation by Judge Ward, [illegible] young Grant's partner [illegible]

INSURANCE SWINDLE.

NEW YORK, July [illegible]—[illegible] has been discovered [illegible] insurance companies [illegible] irresponsible brokers [illegible] the collection upon the death of sickly persons in their homes, dressing the bodies in the clothes and jewelry of the insured persons, and having them identified [illegible]

INFESTED BY FROGS.

EAGLE PASS, TEX., July [illegible]—Myriads of frogs in [illegible] and vicinity. They made their appearance three days ago and multiplied so rapidly that the earth is literally covered with them. They are moving in a northeast direction. There are none on the Mexican side of the Rio Grande. This unusual [illegible] in a country where frogs are scarcely [illegible] by Mexicans as forerunner of some dire calamity.

FUSION IN IOWA.

DES MOINES, July [illegible]—The greenback state convention met here to-day with 500 delegates in attendance. J. B. Weaver was permanent chairman. The convention adopted a fusion resolution, by three-fourth majority, and nominated candidates for lieutenant governor and superintendent of public instruction, leaving the candidates for governor and supreme judge to be nominated by the democrats.

MACSWEENEY LIVING IN HOPE.

NEW YORK, July 7.—Daniel MacSweeney, the famous suspect, has not yet received any appointment. It is said he has declined two minor positions which have been offered him. MacSweeney thinks of going back to California soon, there to await results. He is confident he will get something, but does not intend to be put off with any minor position.

NOYES SAID TO HAVE DECLINED.

NEW YORK, July 7.—The *Sun's* Cincinnati special says: It is asserted on good authority that General Noyes has sent a telegram to the president, declining the appointment of government director of the Union Pacific railway. It is pretty generally believed in this city that he did this at the solicitation of Governor Hoadly, who recommended him.

INDIAN OUTRAGES IN KANSAS

The Cheyennes Leave their Reservation Murdering People and Burning Houses

WICHITA, KAS., July [illegible]—A special dispatch to the daily *Eagle* dated Kingman City, Kansas, [illegible] [illegible] to-day says: J. B. Wilson, living three and a half miles east of [illegible] and whose character is vouched for by the president of the bank of Kingman, arrived at that place this afternoon and says a man was killed nine miles west of [illegible] last night by a band of Indians. A [illegible] son of the murdered man escaped and came into [illegible] and brought the first news of his father's [illegible]. The [illegible] passed four [illegible] [illegible] in the direction of Kingman, at which point the excitement is very great.

A [illegible] dispatch says three families have [illegible] from the settlement beyond. The report [illegible] rumors are passing rapidly through the country warning settlers that the Indians are [illegible] and burning everything before them. [illegible]

AN APPEAL FOR PROTECTION.

WASHINGTON, July 7.—Ex-Delegate G. H. Oury of Arizona to-day filed with the commissioner of Indian affairs a letter upon the general subject of Indian troubles in that territory. He says in part: It is but natural that the people of a community who have been so fearfully outraged in the past by savage tribes of Indians in loss of life and property as have been the people of Arizona should become restless and discontented under the governmental policy which permits a dreadful and barbarous foe to be maintained in their midst, armed and equipped in such a manner as to render them capable of dealing death and destruction upon innocent and inoffending citizens when ever their savage instincts may lead them to do so. The people of Arizona are restless and discontented under this state of things and appeal to the government to relieve their fears by disarming the Indians on the reservations in that territory, especially those occupying the White Mountain Indian reservation at and near San Carlos agency. The people of Arizona ask the president to issue an order requiring all arms to be taken from Indians occupying reservations in the territory, and earnestly request your co-operation in the premises.

Mr. Oury says that the only true solution of the Indian problem is to be found in their removal from Arizona and their settlement in Indian territory, and concludes as follows: "The people of the territory ask President Cleveland to recommend in his message to congress the removal of the Indians as above suggested, and hope the department, recognizing the justice of the move, will heartily endorse it."

MANY OUTRAGES REPORTED.

TOPEKA, July 7.—The city was considerably aroused this evening by the reported reception of telegrams announcing the arrival of Cheyenne Indians in the counties of Pratt and Comanche and that the marauders were doing great damage to life and property. At 7 P. M. Governor Martin received the following from Colonel [illegible] of Santa Fe: "The day operator at Wichita says that an [illegible] reported in the south part of Pratt county to-day. Several were killed and [illegible] [illegible] hope the news [illegible] The stock was driven out. One man who came into Pratt to-day says he is the only one left of his family, the others were killed, but the operator does not know how many were killed. All possible exertions are being made by the government to protect citizens of the state from [illegible] by Indians.

TROOPS WANTED.

WASHINGTON, July [illegible]—A dispatch was received at the interior department to-day from the Indian agent at Fort Reno, Indian territory, asking that more troops be sent to that post to be in readiness [illegible] of the Cheyenne Indians go on the warpath. The dispatch was referred to the secretary of war, who directed General Augur at Fort Leavenworth to send all his available troops to the territory without delay.

CHEYENNES LEAVE THEIR RESERVATION.

WASHINGTON, July 7.—A dispatch was received at the office of the commissioner of Indian affairs to-day from Inspector Armstrong, reporting that some of the Cheyennes have broken away from the reservation and gone into the Pan Handle of Texas. Secretary Lamar sent the dispatch to the president.

THE CHICAGO STRIKE ENDED

A Conference Held, Resulting in an Agreement to Return to Work.

CHICAGO, July 7.—Notwithstanding the [illegible] instructions yesterday afternoon the West Division Street Railway company sent out thirty-two of its cars at [illegible] this morning, on Madison, Lake and Van Buren street lines. The cars were all guarded by from six to eight policemen riding on each car, while the streets are patrolled by a large reserve force. Early down-town cars were well patronized, ladies and working [illegible] constituting the bulk of the passengers. [illegible] quiet along the several [illegible] routes, crowds not being permitted to assemble.

Car driver Wallace Chaffee, who was assaulted by the mob last evening, is at the county hospital in a precarious condition. Eight persons have been arrested for participation in the disturbance. This afternoon [illegible] in the meantime residents of the West Division are depending very largely upon express wagons and other improvised conveyances by which to reach the business portion of the city and are compelled uniformly to pay ten cents for fare.

A CONFERENCE HELD.

A conference between the street railway officials and the strikers occurred this afternoon, at which a proposition was made to the strikers on behalf of the company to which [illegible] to be returned at [illegible] o'clock this evening. It is thought that this means a termination of the strike. [illegible] new running [illegible] has been reported this morning.

At a meeting of the strikers, drivers and conductors to-night it was agreed to accept the proposition [illegible] and return to work to-morrow. In this way the last hope of a settlement of differences by arbitration is removed, as upon the terms of the men the company agreed to submit the question of [illegible] [illegible]

THE IRON STRIKERS [illegible]

CLEVELAND, July [illegible]—Great excitement prevails in the eastern part of the city this morning. Twelve hundred strikers from the iron mills at Newburgh marched into the city and visited the Chisholm steel works on Case avenue. This establishment is operated by the Chisholms, who also own a controlling interest in the Cleveland rolling mills. The strikers forced the workmen [illegible] [illegible]

LARGEST IN THE WORLD.

In the department of baking powder and flavoring extracts, the Price Baking Powder Co., of Chicago and St. Louis, are the largest in the world. Hundreds of tons of the crystals of cream of tartar, direct from grape vineyards of France, are annually used in Dr. Price's Cream Baking Powder, and the entire product of a large Madagascar grower of vanilla beans consumed every year in Dr. Price's Flavoring Extract of Vanilla. This immense business is accounted for by the purity and excellence of their productions. The enterprise and business honesty of this company are certainly commendable.

A [illegible] INVESTIGATION.

WASHINGTON, July [illegible]—An [illegible] of the board of school trustees of this city has been under investigation by District Commissioner West for several days. Charges no less serious than falsification of teachers' pay rolls and diversion of public moneys into unauthorized channels were amongst items in the indictment brought by one trustee against another, though there appears to have been no intimation in any quarter that personal gain of the trustees were among the motives for any of the alleged irregularities. General West [illegible] [illegible]

AN IMPORTANT DECISION.

WASHINGTON, July 7.—The secretary of the treasury to-day decided a contract case involving an important labor question. Bids were recently opened for stonework on the postoffice at Peoria, Illinois. Messrs. Brainerd & Co., of Joliet, Illinois, were the lowest bidders. A protest against their being awarded the contract was, however, filed by Messrs. Straub & Co., of Buffalo, the next lowest bidders, on the ground that Brainerd & Co. are contractors for labor of the Illinois state prison, and would employ convict labor on the postoffice. The matter was referred to Solicitor McCue, who gave an opinion that the department should not be expected to dictate means by which contractors perform their work, and that he did not believe the [illegible] [illegible] Secretary Manning has sustained the solicitor and the contract will be awarded to Brainerd & Co.

Some little excitement arose in consequence, especially when it was reported that about $15,000 [illegible] in similar notes had been issued. Subsequent inquiry developed the fact that the issue in question was regularly authorized by act of June 30, 1864, which was in full continuance and probably accounted for the typographical error in the date of the note in question. The note was redeemed the [illegible]

He will go to a point some forty miles distant from a railway, where there is only one hotel, which will be occupied entirely by himself and his friends, and while he is there it is safe to say that office seeking bores will not trouble him to any great extent. FOREIGN DISPATCHES

Important Announcements in the House of Commons.

GLADSTONE DOES SOME TALKING

The Pall Mall Gazette Sensation Attracting Much Attention. Fears of Treachery in Afghanistan. Old World Happenings.

LONDON, July [illegible]—Lord [illegible] Mathers [illegible] [illegible] general in the [illegible] this afternoon [illegible] of the government to proceed with [illegible] bills this session because of the [illegible] the introduction of the [illegible]

[illegible] the Right Hon. W. H. Smith [illegible] secretary for war [illegible] [illegible]

Sir Richard Assheton Cross, home secretary, in reply to Mr. Labouchere's question as to whether the *Pall Mall Gazette* could be criminally prosecuted for its scandalous publications, said that the *Gazette* could be prosecuted by indictment in the usual way.

Sir Michael Hicks-Beach, chancellor of the exchequer, replying to Mr. Charles McLaren (advanced liberal), said he could see no reason why Sir Henry Drummond Wolff should not go on a special mission to Egypt. There was reason to believe that Sir Henry was agreeable to the Khedival government. Mr. McLaren then gave notice that he would introduce a motion declaring that it was inexpedient to entrust Sir Henry with the mission in question.

A MOTION BY HICKS-BEACH.

Sir Michael Hicks-Beach moved that the government have precedence in the business of the house on Tuesdays and Wednesdays. He deprecated the idea of the motion being regarded as one of confidence in the government. It was simply proposed and submitted for convenience of the house to enable the house to transact remaining business as quickly as possible. The government had no desire to screen their policy and actions from criticism, but the main business now should be subjects of supply and ways and means, which business was very backward. In addition to the budget the government intended to proceed with consideration of the federal council bill, the Australian and East India loan bill, the Irish educational endowment bill and the secretary for Scotland bill. The government, the chancellor said, was also extremely anxious to deal with the very important Irish land purchase bill, but it would be impossible to pass this measure at this period of this session if it met with opposition. The government did not intend to renew the crimes act. In regard to this measure Mr. Gladstone had said that the liberal government had intended to renew certain provisions, but the speaker was unaware of the nature of these provisions because he had found no trace whatever of any bill having been prepared by the late government. (Cheers.)

The government, the speaker continued, did not propose to proceed with the crofters bill or other contentious bills, but it thought medical relief disqualification ought to be dealt with soon. Portions of the criminal law amendment would also become a law this session if the house granted time for their discussion.

SUPPORTED BY GLADSTONE.

Gladstone supported the motion because he thought it was desirable to speedily wind up the business of the session. In regard to the foreign policy Mr. Gladstone said he believed it was the duty of the opposition to support the present government in the prosecution of important national aims. The statement was in the main correct that Russia had promised Zulfikar pass to the ameer's government. Mr. Gladstone said the government would have his best support in all reasonable efforts to bring that question to a settlement.

Referring to the Egyptian question, Gladstone admitted that the government ought to avoid committing itself, and should be allowed time in which to obtain the fullest and best advices. The question of finance was of the first importance to Egypt, and until it was settled nothing could be done.

Mr. Gladstone, in connection with Irish affairs, said he regretted that a controversial matter had been introduced in this debate. As a matter of historic fact he recalled that every time the liberal party proposed a coercive measure that the measure was accompanied by remedial measures. The government, he said, incurred great responsibility in abolishing the crimes act. It was not the business of the opposition to wish the government to fail. If the government should protect property by means of ordinary law he wished it God speed.

Lord Randolph Churchill thanked Mr. Gladstone for his considerate reception of the motion of the chancellor of the exchequer. Lord Randolph disclaimed on behalf of the government any responsibility for the evacuation of the Soudan. He said that when the government assumed office the order for evacuation had been carried out, and could not be reversed.

THE PALL MALL GAZETTE SENSATION.

LONDON, July 7.—The *Pall Mall Gazette* to-day prints, in addition to its articles begun yesterday, which have for their object the exposure of the growth of the trade in young girls for immoral purposes. The greatest sensation has been caused by these publications. The *St. James Gazette*, in an article to-day, stigmatizes them as the most obscenity ever issued from the public press or in a public print. The book stall controlled by a firm of which the Right Hon. William Henry Smith, secretary for war, is the head, refuses to sell either yesterday's or to-day's issue of the *Pall Mall Gazette* on account of the indecency of those articles. Street sales of the paper containing the story, however, have been enormous, and copies of both day's editions command a premium. The matter will be brought up in the house of commons this evening, when the Right Hon. George Augustus Bentinck will ask Sir Richard Assheton Cross, home secretary, whether he [illegible] which to criminally prosecute the authors and publishers of the articles.

PARLIAMENTARY NOTES.

LONDON, July [illegible]—In the commons last night, in the Bradlaugh division, the Parnellites supported the government when the vote came before the house.

[illegible] and others will question the government in regard to the mission of Sir Henry Drummond Wolff. The government has promised to give an opportunity for discussion.

GORST'S EXPLANATION.

LONDON, July 7.—John Eldon Gorst, conservative member of parliament for Chatham, in an address last night to his constituents, said: "We joined with the government in hoping it would be able to preserve honorable peace and in the opinion that it was necessary to keep the army and navy in a thoroughly efficient condition to secure that effect."

SALISBURY DISTRUSTED.

LONDON, July 7.—The policy of the new government as outlined by the Marquis of Salisbury in the house of lords yesterday is not regarded in France and Germany as altogether reassuring, and his statements had the effect of causing a weakening on both the Paris and Berlin bourses to-day.

THE ANGLO RUSSIAN TROUBLE.

TREACHERY FEARED IN AFGHANISTAN.

LONDON, July 8.—The *Standard* prints this morning advices from a reliable source in India in regard to recent events in connection with the Afghan frontier trouble. The *Standard's* correspondent asserts that the ameer of Afghanistan attaches little value to the friendship of either England or Russia. The ameer considers Lord Dufferin stingy. He had expected from the English representative much larger subsidies of money and arms than those which have been given him. The correspondent says the ameer in giving arms and food to his subjects, first exacts a condition that they will fight if called upon either English or Russian. A pilgrim from Afghan-Turkestan reports that a feeling of extreme dissatisfaction against the ameer's rule exists among officials there. He declares that these officials are ready and willing to join Russia or Ishak Kahn. It is also reported that the governor of Afghan Turkestan has opened direct negotiations with Russia, and it is asserted that in this course he had permission of the ameer, but this is doubted. Large bodies of Russian troops are moving toward Merv and Maimena.

SAN FRANCISCO, July 7.—John Russell Young, in response to a telegram received from Secretary of State Bayard, will remain in this city to await further instructions in regard to a conference with Colonel Denby and will then proceed east. Mr. Denby will start for San Francisco sooner than expected in consequence of this conference. Mr. Young states that he has been the recipient of courteous treatment at the hands of the secretary of state, and will give Colonel Denby the benefit of whatever information he possesses by virtue of his four years residence in China. A special committee of the republican county committee has been instructed to invite Colonel Denby, the new Chinese minister, when he arrives in this city, to [illegible] Chinatown, that he may see the condition of things there and judge for himself of their undesirableness to this country's population.

A FAVORABLE SHOWING.

SAN FRANCISCO, July [illegible]—Commercial statistics [illegible] first half of the year [illegible] are now made up, and it is seen that notwithstanding the dull times we have done more business during the past six months than in the corresponding period of last year, the exchanges at the San Francisco clearing houses for the first half of 1885 amounting to $373,649,000, against $367,939,000 in the first half of 1884. These clearings are now accepted as the nearest guide to the volume of business and they show that thus far in 1885 we have done about $[illegible],000,000 more business than in the corresponding period last year.

A SLUGGER KILLED.

Bernard Kelly and James Wilkinson engaged in a slugging match last night, in an underground dive known as the Fox. In the seventeenth round Kelly struck at his opponent and immediately after fell forward unconscious. He was taken to the receiving hospital, where he died to-day. The police surgeon believes that his death resulted from concussion of the brain, superinduced by blows struck during the contest. Wilkinson has been arrested, charged with murder.

A BAD SHOWING.

The *Bulletin* this evening prints a statement that 6000 Chinese landed here during the time from August 1, 1882, when the restriction act went into effect, to July 6th, 1884, when the amended act was passed. From a later date until July 6th, 1885, over 8100 Chinese have landed, or 2100 more in one year under the amended act than during twenty-three months under the original act. This the *Bulletin* accounts for by the increasing of fraudulently obtained certificates.

THE OUTRAGE ENDORSED.

SALT LAKE, July 7.—The city council, in secret session to-day, unanimously adopted the report of the committee declaring in favor of the half masting of the flag on the Fourth of July, because of the raid on prominent Mormons for living up to their rights as American citizens, and endorsing the acts of the police in resisting the efforts to raise it to the top of the pole. They pleaded the act of four years ago, in half masting the flag when President Garfield was shot as a precedent, and expressing the same sentiment of sorrow they feel now. The committee find no disrespect intended to the flag, but that it was only done as expressing the feelings and sentiments of a great majority of the people. The council are unanimously Mormons.

WASHINGTON TERRITORY.

NEWS ITEMS FROM SPOKANE FALLS.

SPOKANE FALLS, July [illegible]—The rich yield of the recent shipment of Old Dominion ore has given a fresh impetus to prospecting in the Colville valley, especially in the vicinity of Chewelah. Large prospecting parties are out, and those who own mines are feeling more confident than ever over the future prospects of the camp. The Old Dominion has been jumped by a party who claims that the owners and discoverers are not citizens. It is not improbable that serious trouble will grow out of it.

The Spokane Falls water bonds have been floated by parties in the east, and in a short time the city will own as fine a system of Holley water works as there are in the northwest.

The telephone between Harrington and Spokane Falls has just been completed and the first message of congratulation was to-day sent to the *Evening Review*.

The papers are duly attested and Hibbs will be tried under the extradition treaty for forgery. The authorities are somewhat doubtful whether the charges of forgery will stick. No other alternative is presented. If convicted on the forgery charge, Hibbs will be returned to Lewiston to await trial before the district court. If acquitted of forgery Hibbs must be given, under the law, time to return to British Columbia before being arrested on any other charge. If surrendered under the extradition treaty he will be taken to the Boise City United States penitentiary by Marshal Dubois, now awaiting action of the colonial authorities.

The Oregonian.

PORTLAND, WEDNESDAY, JULY 8, 1885.

MORE ABOUT BOGUS JOURNALISM

Yesterday it was shown that the alleged telegraphic contents of the Portland *News* of the preceding day were almost wholly spurious. Yet they were no more so than on every day during a year past. THE OREGONIAN has noted the fraud during all this time, but till now has not exposed it, for the double reason that it didn't want to seem unkind, and did expect that the fraudulent practice would not be persisted in as a settled policy. It really expected gentlemen like those of the *News* to become ashamed of so dishonest an expedient and to abandon it. It believed they would see that they could not afford, if they hoped to build up a newspaper, to pursue such a course; that moreover it would occur to them ere long, that they had no right to persist in the effort to impose on the public a counterfeit article for the purpose of making gain for themselves. But the fraudulent system has been adhered to and enlarged, to the scandal and hurt of legitimate journalism and deception of the public, till it has become apparent that nothing less than thorough exposure would arrest it, and this exposure, with much reluctance, THE OREGONIAN has determined to make.

Again on yesterday, as on preceding days, the alleged telegraphic contents of the *News* were almost wholly fraudulent. That is, the matter which was presented as having come to it by wire did not come by wire, but was worked out of newspapers received by mail, with dates raised to create a false impression as to its freshness and reliability. Let us particularize. A so-called dispatch in relation to the postoffice department and its estimated deficiency for the current fiscal year, bearing date Washington, July 6, was taken from eastern papers of July 1. Precisely the same matter, though much fuller in detail than the form in which the *News* gives it, was published by THE OREGONIAN the same day on which it appeared in eastern journals. The *News* might have printed its "dispatch" several days earlier than it has done, but it waited for eastern papers by mail, from which it has made a report that it gives under a "raised" date. Again, under the head of "Extensive Land Sale," dated "St. Paul, July 6," it presents an account of the sale by the Northern Pacific Railroad Company of a large tract of land to the Anaconda Mining Company of Montana, with a general statement as to increased sales of Northern Pacific lands in Dakota, Minnesota and elsewhere. The so-called dispatch didn't come by telegraph at all. St. Paul papers had it as a news item a week before the *News* printed it as a special dispatch, and the Helena *Herald* of July 3d contained it. Under date of "Jackson, Miss., July 6," there is a pretended dispatch, which says that "a large number of delegates are in town to attend the state prohibition convention, which promises to be the largest ever held in the state for years. This convention was held a week ago. A dispatch from Jackson, June 30, published in the Minneapolis *Tribune* of July 1, said: "The state prohibition convention, which meets to-morrow, promises to be the strongest movement yet made in favor of strict prohibition," etc. Under date of "Dubuque, July 6," a *News* "special" reads: "The prohibitionists will inaugurate an agitation for the enforcement of the prohibitory law in this city, and have engaged Colonel Woodford of Baker Rapids to speak here all next week. Active hostilities are to follow." This is a Dubuque special, word for word, to the St. Paul *Pioneer Press* of July 2. Again, under date of "New York, July 6," we are informed by a *News* "dispatch" that "William H. Vanderbilt has attached his private car to the Chicago limited and started for Sharon Springs. He is the only railroad man in America who deadheads or attaches a special car to this train." This item the *Pioneer Press* had as a special from New York, July 1. Under the heading of "Successful at Last," the *News* presents what it wishes to pass off as a dispatch to it from Philadelphia, which it dates July 6. The *Pioneer-Press* has this very same matter under the very same heading, dated Philadelphia, July 1.

We might continue at great length this examination and exposure of the alleged telegraphic contents of the *News* of yesterday, but the above will suffice as samples of their fraudulent character. The genuine dispatches in the *News* are of very limited extent. They consist mainly of the brief reports published in the *Evening Telegram*, which it is at entire liberty to use. We don't utter a word of complaint that it does use them, though it never has given credit, and appropriates them as if they were its own. To this brief report it usually adds from two hundred to four hundred words of its own, received from Chicago, but the whole would not fill, one day with another, the space of three inches in THE OREGONIAN. This is its telegraphic service. The entire amount of news it carries in a month is usually exceeded by the amount carried by THE OREGONIAN in a single day. To "make a showing" it clips, rewrites and works over old matter received by mail, and to make the matter look fresh and deceive the public it advances the dates; and its stuff of this quality includes four-fifths of all the matter it presents as news received by telegraph.

Such efforts to deceive are paltry, reprehensible and unworthy. The proprietors of the *News* ought to abandon them at once. It is not possible to gain a reputation in honorable journalism, nor to have the respect of the business community or honest men anywhere, while pursuing a course so clearly crooked and fraudulent. For the sake of journalism [illegible] that our neighbor will at once take a different course. It certainly must assent to the proposition that a newspaper has no right to mislead the public as to facts and events. But to give point and force to that assent it is necessary for it first to abandon the habit of working over old news, changing dates, pretending that the events are fresh and that the news has just been received by telegraph, and endeavoring to put off the result on the public as a record to be depended on.

SHERMAN ON THE MONETARY QUESTION

Senator Sherman is one of [illegible] authorities on financial and monetary subjects. His course on the senate's finance committee, and again as secretary of the treasury, impressed the country with the belief that he was a judicious, careful and safe man. His knowledge of the principles of finance is not surpassed by that of any of our public men, and his judgment as to facts and measures has always been of the best. No man during the last twenty years has had a larger share of public confidence on all subjects relating to financial affairs.

Since his return to Ohio from his visit to the Pacific coast he has been giving his views at some length on the silver question. The *Cincinnati Commercial Gazette* reports him as saying that during his western tour he found a good many people, especially among business men and among farmers as well, who are very decidedly in favor of coining silver at its market value instead of at a fictitious value, and this view, he thinks, has been greatly strengthened [illegible] among holders and producers of silver bullion. He further said that his opinion [illegible] that the greatest good that could possibly befall, not only the people of the [illegible] states but of the whole country, would be for the United States itself promptly and boldly to purchase its entire product of silver at the market value of silver bullion and make it the basis of money certificates and also to coin it to the extent that would be required for circulation.

[illegible] emphasizes the fact that there has been a change during the last fifteen years in the relative bullion values of silver and gold, and he thinks our coinage laws ought to be made to conform to the facts of this change. The extent of this change was for a long time an unknown or extremely variable quantity, but after the fluctuations of some years it appears to rest substantially at about 16 per cent. of the old adjusted valuation. That is, still calling gold 100, silver is about 84. Making the necessary change to correspond with the new relation or proportion, Mr Sherman believes that "silver and gold can be maintained at their present relative value for a long period of time, and "the good sense of the people, which, after all, is the highest wisdom, will soon see that this is the plain way out of our present trouble, and in this way only can we secure the benefits of bimetallic money of equal value."

This is a simple and easy method, perspicuously stated. Senator Sherman's position and authority will go very far towards commending it to the country and carrying it through congress.

AN IMPOLITIC DISPLAY.

One of the worst of the many abuses which have grown up under our public school management, is the practice of making graduation a ceremonious and fashionable event. The exercises of the High School at the New Market Theater on Monday afternoon and evening were in flagrant violation of the simplicity becoming to the occasion, wholly out of harmony with the idea and plan of the American public school. We venture to say that the whole cost attendant upon the "graduation" of the girls who received diplomas on Monday was not less than $40 in any one instance, while in others it must have been much greater. Can any body with the true idea of the public school in mind, pretend to justify this extravagance? It is at best a piece of wasteful display and it is a serious injury to those whose lot in life must be of the common sort. It puts notions of frivolity and fashionable elegance into minds which would much better remain innocent of them. But the worst of fashionable "commencements" is that they absolutely bar many children from the fullest benefits of the schools. Graduation in the style of Monday's performance is an affair so elaborate and expensive that the children of the poor, for whom the public schools are primarily intended, are practically excluded from its advantages.

We pass over the physical and other objections to graduation as a public ceremony, to the impropriety of it in the present and in other similar occasions. The idea of the public school is to afford the advantages of education to all the children of the land. Its purpose is to fit the young for intelligent citizenship, and those branches and those practices not essential to intelligent citizenship, are properly foreign to it. It is not the purpose of the schools to produce finished scholars, but to promote that general and common intelligence which will advance public morality and public happiness. And yet, from a public graduation, we might naturally gain the impression that the business of the schools was not to turn out good citizens, so much as to fit the young for elegant and fashionable society. THE OREGONIAN is a firm believer in the wisdom of general education and in the policy of free education. It believes that the public school is truly the bulwark of American liberty, but it believes that it should attempt no more than to fit the youth of the land for citizenship. More than this it believes to be a public injury instead of a public benefit.

In the new High school building on Morrison street, which is costing such an enormous sum of money, the greater part of one floor is assigned for an exhibition room or hall for graduating and other public exercises. The tendency of all these occasions is to extravagance in dress and to a general elaboration out of harmony with our school system and a direct injury rather than a benefit to the cause of popular education. This hall should be cut up into class rooms, and we hope the directors will do it.

It is said that neither President Cleveland nor Secretary Manning knew anything of Mr Hedden, the new collector of the port of New York —had never even heard of him—until his name was presented by Hubert O. Thompson, the man who is credited with securing the nomination of Cleveland at Chicago. Well, what of it? Mr Hedden never heard of Cleveland or Manning till a year or two ago.

Hibbs, the rascally postmaster, thought he was doing a mighty smart thing, and no doubt he chuckled immensely over the notion that he had found a new and entirely original way of swindling the government and the public. But it is safe to say that he wishes heartily now that he hadn't discovered it. These new inventions don't always bring peace and happiness.

It is said there are some democrats holding positions in the city government whom it would be a shame if the republicans should turn out. This matter is respectfully referred to Governor Whiteaker for an opinion.

Talking about "raising dates" on alleged news, it is just to remark that one of our esteemed contemporaries has quit it. It seems to lack the energy necessary to go on with the practice.

Particulars of the Recent Destructive Fire at Quartzville

CORRESPONDENCE OF THE OREGONIAN.

MEHAMA, Marion Co., July [illegible]

Messrs Jordan, Thorn and Schwalka have just arrived from Quartzville and report the complete destruction [illegible]

[illegible]

Last Monday morning, Mr Thorn went to work to organize the mill machinery, and with the aid of an assistant had succeeded in getting the mill in working order [illegible] Friday. In the meantime Messrs Jordan [illegible] had succeeded in making their way into the new tunnel through [illegible] and had carried [illegible] of ore from [illegible] different points on the ledge. Outside of a lead pencil, a few journalistic notes and a change of clothing, Mr Schwalka was not much of a loser. How the fire originated is the perplexing question. [illegible]

The fire was a heavy loss and if all the public spirit should manifest itself [illegible] the boys would have showed their [illegible] The quartz mills and pulverizer [illegible]

GRASS VALLEY, WASCO COUNTY.

MILLERS, Or., July [illegible]

TO THE EDITOR OF THE OREGONIAN

Feeling confident that news from the portion of eastern Oregon known as Grass valley, Wasco county will be of some value to your readers, especially those emigrants looking for homes, I herewith give you a brief history of this country. Our country, compared with most parts of eastern Oregon would be considered level, comparing well with low rolling [illegible] The soil is good black loam averaging depth from two to five feet, producing splendid grazing for stock where it is not cultivated, and under fair cultivation it will produce from fifty to forty-five bushels of wheat per acre and from sixty to seventy-five bushels of oats or barley. The soil is very natural for potatoes, and the average crop is larger and the quality of the potatoes is far ahead of anything [illegible] part of Oregon. Small fruits do well and other fruits, as far as [illegible] compare well with other portions of eastern Oregon. But we are greatly in want of a [illegible] bridge across the Deschutes river to give us direct communication with The Dalles [illegible]

The regular boat of the O. R. & N. Company to Astoria yesterday morning took away a considerable number of passengers, and the R. R. Thompson, which left at 8:30 took enough more to make 125 in all. About twenty-five were for Ilwaco, some for Astoria and the remainder for the seaside house.

LOCAL AND GENERAL.

HE WANTED A REPORTER.—At 8:30 last evening there came a vicious ring on the telephone in the reporters' room of THE OREGONIAN. One of the reporters rushed to the machine and yelled, "Hello!" Then a confused rattling and gurgling sound was heard in the machine and the reporter yelled, "stand back a little, you have got your mouth too close to the transmitter." Then came some more indistinct noises, and that boy at the central office who was listening to find out what was up yelled "stand back from the telephone." And then the message came whooping through, "send a short hand reporter up to the corner of Sixth and Oak." "What do you want him for?" was queried. "To take down something," was the answer. "Who are you?" was next asked. "The Rabbi Danziger," was the reply. "All right. I'll be there in a jiffy," said the reporter, who expected that a murder had been committed and he was wanted to take its ante mortem statement. He started off at a rapid pace and after narrowly escaping being killed by a big Newfoundland dog which jumped from a third story window of Union block as he was passing, he arrived out of breath at the corner of Sixth and Oak streets. He found a closed church on one corner and an open livery stable on another, and after some inquiry traced the rabbi to his synagogue in the vicinity. On entering the place of worship the reporter found Marks Rybke and a lot of other fathers in Israel who stated that a private examination of Rabbi Danziger was in progress on some twenty-six charges preferred against him, including embezzlement, conduct unbecoming a rabbi, etc., etc., and that reporters could not be admitted. The reporter said that he would try and sort of break only live on without being present at the investigation, but he would like to see the rabbi, who had telephoned for him. So the rabbi was informed of the fact and came out by a back door and round to the street where he met the reporter. He wished to engage the pencil shover for the evening to report the investigation, not for publication but for his own satisfaction. He was informed that THE OREGONIAN reporters worked only for that paper and were not to be called out by telephone like a doctor or policeman by any one who needed their services. And then the reporter wended his way back.

THEY WILL SEEK SECLUSION.—The board of school directors, it is understood, have taken measures for self preservation, which is the first law of nature. They cannot bear the idea of facing the 500 and odd disappointed applicants for positions on the staff of public school teachers. It appears that the fame of the public schools of Portland has spread abroad as applications for positions as teachers have been received from all parts of America as well as from Europe. With only seven vacancies to fill it was impossible to find positions for all applicants and of course every lady who did not get a position will feel slighted. Director Wasserman saw the storm afar off and fled. He will linger around Coney Island for a while. Mr. Versteeg will seek the wilds of Idaho and amuse himself during the heated term in hunting Brick for a state house for that territory. Mr. Dodd will investigate the agricultural machinery of the Inland empire for a month or so. Mr. Wilson will have a bomb proof room built around his favorite seat in the library. Mr. Thompson will retire to a secret cave near Tillamook Head for several weeks and will have his meals sent from the Seaside house while he is playing the hermit and singing, "Wait till the clouds roll by." Taking one consideration with another, the life of a school director is not a happy one.

THE THIRD STORIES.—About 8:30 o'clock last evening as an OREGONIAN reporter was turning the northwest corner of the intersection of Stark and Second street, he heard a jingling of wires overhead, as if some one was playing a celestial zither, and looking up, he saw some huge, black object tumbling through among the telephone wires. A moment later it landed on the sidewalk and proved to be Colonel Fleischner's big black Newfoundland dog "Nig," which had leaped from a third story window of Union block. The animal walked out into the center of the street and lay down, while a crowd gathered around him. A moment later, Louis Cohn, porter at Fleischner, Mayer & Co., arrived and began bewailing the loss of the dog, but the huge animal got up and walked, though with difficulty, and Cohn called a hack and carried him off home. It appears that Cohn had taken the dog up into the third story of the block and for some unknown reason he had taken the short cut through the window to the street. The telephone wires, of which there are several dozen passing under the window, saved the life of the animal.

[illegible] THE EXHIBITION CAR.—A regular meeting of the board of immigration was held yesterday, Messrs. Dodd, Corbett and [illegible] and Secretary Carlisle present. After routine business had been dispatched, the question of collecting specimens for the exhibit car for the east was taken up and discussed. Mr. F. W. Allen was appointed to take charge of the car, the collection of the various exhibits and the movements of the car. He will begin immediately the work of making the collection, during which he will visit nearly every section of the state. The car will start east about the middle of August and will travel until October 1st, when it will be taken to New Orleans and added to the present exhibit there.

NO MANGANESE SPECIMENS.—A letter from Washington county, published in THE OREGONIAN a few days since, stating that a manganese mine had been found out in the mountains of Columbia county, has attracted much attention. Numerous applications have been made at this office for specimens of the metal from this mine. No sample has been received by THE OREGONIAN, and the discoverers of this valuable mine are invited to forward some of the ore at once. There seems to be a number of people wild about manganese. Manganese, manganese, who's got the manganese? What the deuce is manganese, anyhow? Washington county will please come to the front and send up samples.

GETTING COOLER.—The superheated term is over, and clothing has again become a necessity. Four days of such weather as we have lately enjoyed is just one more than our heated term usually consists of. So no one acquainted with the climate of Oregon was surprised when yesterday the barometer and the thermometer began to tumble, and a fresh cool wind to ruffle the river and cirrus clouds to float across the sky. By 4 P. M. the thermometer had fallen from 89 2/3 to 70 and the thermometer from 95 to 82.5, and everybody was looking refreshed and happy. It is scarcely probable that we shall have rain soon, but there is no likelihood that we shall see the thermometer approach 100 again very soon.

KNOWS HIS TRADE.—The veteran charcoal burner old John Dice, after a two years absence from the city, was seen on the streets yesterday looking as dusty and charcoaly as ever. He has been in the employ of the Oregon Construction company, burning charcoal for the use of their blacksmiths along the Baker City branch. Dice is the best charcoal burner in the state. He used to take his ax, strike out for timber, cut the wood, build the kiln, and attend to it all by himself and they would hear nothing from him till the coal was ready for hauling. It will be of interest to many who have known Dice for years, but were not aware that he was good for anything in particular.

ACCIDENT.—Judge W. H. Adams yesterday morning met with what might have proved a very serious accident. He drove relatives to Morrison street wharf to take the Telephone for Astoria. While he was bidding them good bye the whistle startled the horses. He grabbed for the bridle but only succeeded in catching the driving rein, the slack of which, by swelling, caused him to fall partially under the horses feet, and he was dragged [illegible] feet. His clothes were badly torn, his [illegible] broken and [illegible] bruised. He was, however, able to drive home and put up the team [illegible] without help, and is [illegible] favorably with out the services of a physician.

[illegible] NEW QUARTERS.—Some fault has been found with the signal service barometer on the ground that it does not rise to the occasion when we have a hot spell. The signal station will be removed the latter part of the month to [illegible] southwest corner of the fourth story [illegible] block, and a new and improved instrument [illegible] will be erected upon [illegible] of the building. It will be elevated [illegible] and will be enclosed by a white lattice work. This shelter will keep out the full rays of the sun, and the instruments inside may do better than in their present position.

NEW MECHANICS' FAIR.—The board of directors of the Portland Mechanics' fair, met last evening at the office of J. H. Pengle, and decided to hold the next fair commencing Thursday, October 8 and to continue until the 11th. The Grand Army of the Republic was granted the privilege of using the building from September [illegible] the [illegible] [illegible] Aaron [illegible] having been elected superintendent, will locate his office on Stark street between First and Second streets, until the commencement of the fair.

TO THE SEASIDE RESORTS.—Don't forget the convenient hour at which the R. R. Thompson starts for Astoria, Ilwaco and Clatsop beach, to-morrow 8:30 A. M. This is in addition to the S. G. Reed," which leaves at 6 A. M. as usual.

WHIPPED BY A CHINAMAN.—Last evening Policeman Nash, while coming down Alder street, espied a Chinaman sitting astride a white man, and thumping away at him like a pile driver. The man, who was white by nature, was White by name also, and he appears to be a little off his cabeza. He is the fellow who undertook to thrash Mensel other some months since. He said the Chinaman was in the way and he did not care to walk around the heathen, but he did not make a success of walking over him, as the celestial proved to be a shoulder striker and just let him a big hunting. They were both locked up.

SAWMILL DESTROYED.—The portable sawmill belonging to Isaac Garrard and Leander Lewis, located on Lewis Love's place on the Columbia slough about five miles east of this city, was destroyed by fire on the afternoon of the Fourth. The boiler and engine escaped with slight damage, and some of the machinery, with repairs, can be used. Considerable lumber was destroyed. The loss is $600, without any insurance. It is the intention of the owners to rebuild without delay, and they expect to be running within a month. The fire was probably of incendiary origin.

WON THIRD MONEY.—Company B, the Emmet Guard, also took part in the rifle contest Monday, scoring 172 and winning the third prize. The omission was made in the official report furnished by the committee to THE OREGONIAN. A number of the original members of Co. B protest against this company being called the Veteran Guard. At its organization and for some time afterward the membership was confined principally to the Grand Army of the Republic, but only a few of the old members now remain.

RETURNED TO LEGAL PRACTICE.—W. S. Newbury, who was for several years the head of the house of Newbury, Hawthorne & Co., of this city, and extensively engaged in commercial business, has resumed the practice of his profession, and will give his entire attention to his law business. He is an old resident here, well and favorably known, and no doubt will, as formerly, command a fair share of business. He is located at rooms 18 and 19, Cambridge block. Mr. Newbury's card appears in another column.

TO ILLUMINATE OREGON CITY FALLS.—Next Saturday evening an electric light excursion will be given to the falls at Oregon City on the splendid steamer Multnomah. The falls will be illuminated by means of red fire placed on the rocks, and immense electric lights thrown on the water from the steamer. There will be a concert by the newly organized Bohemian quartette and an orchestra under the direction of Charles Ertz. The boat will leave Morrison street at 8 [illegible]

SENSIBLE RESERVATION.—Our correspondent at Pleasant Home writes: The 4th was duly celebrated [illegible] What few of the citizens left in town on that day brought out the engine, and after sprinkling Main street well with the engine, formed in line with engine, drums, bar rels and horns, marched through the principal streets with music and banners. C. B. Montague was called upon and delivered a very spirited oration, which was loudly applauded.

MARRIAGE LICENSES ISSUED.—County Clerk Saunders issued six marriage licenses yesterday and two on Monday. The contracting parties are: William P. Cantrell and Olive A. Myers, John Cahill and Winifred McGrean, W. T. Cooper and Ella Shepherd, Tycho Sundberg and Mary Nitchy, John W. Griffin and Bridget O'Connor, Robert H. Wilkinson and Jessie M. Truchot, Charles B. Cooper and Mary J. Wall, and James Hansen and Ida Carlson.

SHAMROCK FROM THE EMERALD ISLE.—W. H. Courtney of this city received yesterday by mail from a friend in Balla, County Mayo, Ireland, a bunch of shamrock, probably the first ever received in this shape. It is still in its native soil, a sort of white clay, though the leaves are perfectly dry. Mr. Courtney prizes his treasure, as do all true sons of the Emerald isle, but he will distribute the national emblem among his friends.

THE CANADIANS.—A regular monthly meeting of the Canadian association of Portland was held at their hall last evening. Eighteen new members were added to the roll. It was decided to give an excursion to La Camas and Multnomah falls about August 1st, the excursionists being allowed two hours to inspect the extensive paper mills at La Camas, which will be an interesting feature of the excursion.

KNIGHTS OF PYTHIAS.—Castle lodge, Knights of Pythias, installed officers last evening. P. G. [illegible] Buchanan of Mystic lodge acted as district deputy grand chancellor. After installation members and visitors were initiated into the mysteries of the fourth degree. The new officers of Castle are: Oscar Finlay, P. C.; W. [illegible] Brooke, C. C.; [illegible] S. Richardson, V. C.; J. [illegible] Milner, P.; J. A. O'Dea, M. at A.

CLERGYMEN AT HALF FARE.—When the Hoult railway bill, making the maximum charges for passenger travel four cents a mile went into effect, the Oregon and California railroad withdrew the privilege to clergymen of riding at half rate. Since then this has been reconsidered, and hereafter ministers of the gospel will be granted the old concession of half fare.

CONVICTED OF ASSAULT WITH A ROCK.—Frank Martin, the fellow who struck James C. Jennings over the head with a rock in East Portland, several weeks ago, was tried before a jury in Judge Stearns' court yesterday, and convicted of assault with a dangerous weapon. He will be sentenced to-day. Jennings, who has been held in jail as a witness, is now at liberty again.

TRIPS TO ILWACO.—The Ilwaco Steam Navigation Company's steamer General Miles now makes two trips daily (except Sunday) between Astoria and Ilwaco. The first trip will be made at 8 A. M. and the second after the arrival of the boats from Portland, arriving at Ilwaco at about 4 P. M. On Sunday the Miles will leave Astoria at 8 A. M., returning at [illegible] P. M.

DROWNED.—On the 4th inst., Joseph Bell, of Newberg, Yamhill county, recently from Iowa, was drowned. He was bathing in the Willamette, near Roger's landing, was seized with a cramp and went to the bottom. His body had not been found Monday evening, though diligent search was made. He leaves a young wife in deep sorrow.

[illegible] BROKEN.—On Monday evening at La Camas, Robbie, youngest son of A. F. Mills, was thrown from a horse, resulting in the fracture of one of the bones of the fore-arm. Dr. [illegible] set the broken limb and left the boy doing nicely.

THE EAST SIDE.

Mr. and Mrs. John Kenworthy leave for Ocean Park, Ilwaco, this morning, to remain for the season.

Beard, the painter, has removed to the frame building on Fourth street, formerly occupied by him.

By an accidental fall Monday, Harold, aged [illegible] years, son of Justice Simpson, fractured his left arm just at the elbow.

Rev. John W. Sellwood and wife had been married twenty years on Sunday last, and they were very forcibly reminded of the fact Monday evening, when about forty friends and parishioners unexpectedly called upon them to congratulate them upon the event, bringing with them tangible evidence of their sincerity in the shape of an appropriate present, consisting of an elegant china dinner service, also, a silver tea service, with a suitable inscription. The presentation was very neatly done by Dr. Joseph, and Mr. Sellwood in a brief but feeling reply thanked the donors for their kind remembrance. The occasion was one of rare sociability and pleasure.

A Review of the Part Taken by Oregon and the Results.

PORTLAND, OR., July 7, 1885.

TO THE EDITOR OF THE OREGONIAN:

Thinking that a few lines retrospective of the world's exposition at New Orleans and the results attained for Oregon through her exhibit there might be of interest to many of your readers, I venture to pen them down. Much has been said through the columns of the press relative to the seeming financial failure of the great exposition, but comparatively little of the grand success in bringing together the most magnificent collection of the earth's products both natural and manufactured that has ever been collected [illegible] [illegible]

STATE TEACHERS' ASSOCIATION

C. W. Fulton Delivers the Address Welcoming them to Astoria—Other Exercises of the First Day's Evening Session.

A large delegation of the leading teachers of the state went down to Astoria Monday to take part in the annual meeting of the State Teachers' Association, which began that evening. A still larger delegation went down on the Telephone and Reed yesterday, and nearly every part of the state is represented. Professor McElroy, state superintendent of public instruction, and Rev. M. D. Wilson, county superintendent, are busy men and have their hands full for the next three days.

A large audience of ladies and gentlemen assembled in the Congregational church in the evening, says the *Astorian*, and after some excellent music an address of welcome was made by C. W. Fulton. Mr. Fulton began by saying that in bidding the teachers of the state a welcome he only voiced the sentiments of the people of Astoria. This city has a deep and abiding interest in the cause of education, and was for that reason desirous of profiting by the deliberations of the institute throughout the week. Upon the fidelity and wisdom displayed by the public school teachers depended in a great measure the perpetuity of our American institutions. On these institutions depended our liberties, and to the teachers of this country was delegated the task of seeing that the rising generation was firmly grounded in the principles of knowledge, for without education our country cannot live. No better illustration of this cultivating and fostering spirit of the age could be given than on this far off slope of the sunset sea where the last steps of the God of the day were mingled in the misty mazes of the gathering night, a collection of the leading educators of this great commonwealth meet to consult on topics of surpassing magnitude and refresh their mental and physical systems in refreshing breezes from the Pacific.

After an eloquent peroration Mr. Fulton again welcomed the teachers, and was responded to by Mr. O. F. Paxton, superintendent of schools at Portland.

Mrs. C. W. Fulton and D. A. McIntosh then sang a duet, after which Professor McElroy introduced the lecturer of the evening, Rev. Thomas Van Scoy, president of the Willamette university, who proceeded to deliver an excellent lecture upon education.

Mrs. W. A. Wetzel of East Portland sang a brilliant [illegible], "Waiting Heart," which was enthusiastically encored.

Professor McElroy then announced the programme for Tuesday, after which the session closed.

PROHIBITION CLUB ORGANIZED

Last Monday night, pursuant to call, a number of ladies and gentlemen met at 204 Third street, to consider the interests of prohibition and advance the third party movement. The meeting was opened with prayer. The result was the formation of the Portland Prohibition Club with the following officers: Chaplain Stubbs, president; J. L. Johnson, secretary; Mrs. J. Johnson, treasurer. Committees were appointed on constitution and by-laws, preparing and circulating an address to the Prohibitionists of Oregon, corresponding with other prohibition clubs, &c. The following resolution was adopted and ordered sent to the Ohio State Central Prohibition Committee:

We, the members of the Prohibition Club of Portland, Oregon, have heard with deep interest and satisfaction of the pronounced sentiments of the friends of temperance in the state of Ohio in condemnation of the non-prohibitory plank recently accepted by the republicans of that state, and we pledge our hearty co-operation in the advocacy of a distinct pronouncement in favor of political prohibitory action throughout our land.

After some informal discussion on adopting the *Oregon Oracle* as an entirely prohibitory paper and the organ of the party in this state, adjourned to meet at same place (former parsonage of Taylor street M. E. church) July 20th, at 8 P. M. All favoring prohibition to be cordially invited to attend. The secretary was ordered to furnish the proceedings for publication in the daily papers.

To the Sound section was shipped 1950 ctls wheat, 556 bbls flour, 4317 sks millstuff, 800 ctls oats, 250 ctls barley, besides other produce, all of the value of $10,049. Rail shipments eastward included 1,258,077 lbs wool, 237,502 lbs hops, the value of shipments, including salmon, in that direction being $416,160. The value of exports to San Francisco and coast ports was $647,477, exports including 43,257 ctls wheat, 4528 bbls flour, 11,753 cs 27 bbls 39 pkgs salmon, 2,392,850 lbs wool, 106 pkgs woolen goods, 11,253 sks millstuff, 80 sks flaxseed, 137,000 lbs hides, 2752 lbs hops, [illegible] pkgs barrel stuff, 39,500 ctls oats, 10,286 ctls barley, 210 pkgs tallow, 58 bbls beef, 60 tons pig iron, 1802 M lumber, 430 M lath, 297 sks ore. The total value of all domestic exportations was $1,105,035. One cargo of lumber, valued at $[illegible], was cleared foreign. The balance of foreign trade was in wheat, flour and salmon. Six vessels, registering 6742 tons, cleared for Liverpool or Queenstown with 117,799 ctls wheat, 28,328 bbls flour and 17,223 cases salmon. The wheat was valued at $157,800, the flour $100,002 and the salmon $180,[illegible], a total valuation of $446,891. Last year in June eight vessels cleared for United Kingdom ports with 90,[illegible] ctls wheat, 72,797 bbls flour and 75,[illegible] cs salmon, of the value of $720,924. FREIGHTS—The spot fleet is reduced to five vessels, three of which are well along and will soon clear. The market is inactive, with no tonnage at hand to work on. No business is as yet reported in futures, and the en route list is not increased.

WHEAT—Advices are of quiet markets. Receipts here are of liberal proportions, because of the hurried movement from Snake river. Of this the greater part is on consignment or San Francisco account, and the market cannot be said to show any life. Values are quite nominal as last given. Foreign shipments for the season to date have been 164,128 short tons, and two vessels to carry about 3000 tons are in berth. Flour shipments have been 17,608 short tons with the probability of about 1800 tons more going. The whole season's movement foreign may be placed at 176,650 short tons, which slightly exceeds the estimate made six months ago.

OATS—Receipts show no falling off and the market is crowded. Sales are slow and values weak at [illegible].

POTATOES—Only a local trade doing. Prices show no change.

PROVISIONS—Prices continue weak and the volume of trade light. Stocks are not being reduced to any marked extent.

CHICKENS—Offerings less than for last week but prices are unimproved. Quote $3@4 for old.

EGGS—Quote 18c to-day. Some dealers anticipate a decline as receipts rule free.

WOOL—Movement light for the time as few buyers are in market and sales are slow. Holders are slow to accept the lower bids.

NEW YORK STOCK MARKET.

NEW YORK, July 7.—Governments are a little more active and strong, at a general advance of ⅛. This has been a very dull day at the stock exchange, and the few transactions made have been limited almost entirely to a half dozen stocks. Nevertheless the general market exhibits a strong undertone. There was some weakness in the morning in Union Pacific, following the publication of what was regarded as a rather unfavorable statement for the month of May, and Pacific Mail also declined during the first two hours. After midday there was a general weakening in the whole list, which carried prices below early quotations, ⅛ to 1⅛ per cent for most of the active stocks. In the last hour a portion of this loss was recovered, final sales showing only small changes as compared with last evening, but for most stocks there is a decline of ⅛ to ¼ per cent. Pacific Mail is down ⅜, however, and Union Pacific ¾.

The *Mail and Express* says: Mining shares were almost neglected. Breece sold at 15, Con Pacific 50, Little Chief 27, Homestake 12, Father De Smet 4.

CRIMINAL CALENDAR.

A NEGRO RAVISHER LYNCHED.

COLUMBUS, Ky., July 6.—At Baxter's Springs, [illegible] county, a girl 14 years old was waylaid, ravished and terribly maltreated on Saturday afternoon. John Lawrence (colored), aged 17, was arrested for the crime and brought to Columbus at night for safe keeping. A mob followed, and in some way a young white man named Wolfe, one of the party, was shot and killed. Yesterday morning the colored boy was brought here and lodged in jail. When the train from Baxter Springs reached here at noon to-day about twenty men got off near the station and scattered through the town. Half an hour later a number of armed men made a dash for the jail, broke down the iron door, took the prisoner out, and marched him up one of the main streets, with armed men around him to keep citizens from interfering. They took him two blocks west of the jail and hanged him to a rafter of an unfinished house. Then one of the men, said to be the father of the girl, emptied his revolver into the body. The participants in the lynching then walked out of town and returned to their homes.

A FATAL SHOOTING AFFRAY.

SAN LUIS OBISPO, July 7.—A shooting affray occurred this morning on the Estrella plains, resulting in the instant killing of Edwin R. Stowell and Clinton Brooks, and the wounding of Henry Histon mortally, and Steve Moody, John McAdams and William Pepper seriously. For some months past a feud has existed among the people on the plains. Buildings have been burned and property damaged. One party is called the "Owls," and the other the "Vigilantes." Eleven of the former were working with a header on Brookshire's ranch, when eight "Vigilantes" came to punish one of the "Owls." The man who came in after coffins says Clinton Brooks, standing at Henry Histon's right, and was about to take his shotgun from him when McFadden shot Brooks through the head, and Histon shot Stowell through the body. There is a conflict of reports about the wounding of the others. The sheriff, district attorney, coroner and Dr. Nichols have gone to the scene. Great excitement prevails.

A TRIPLE MURDER.

MONCURE, N. C., July 6.—Edward Finch, aged 77 years, his sister, aged 80, both white, and a negro boy about 15 years of age, were murdered near here Saturday night between midnight and daylight. The throats of all were cut. It was evident that all had been knocked in the head with an axe. It is reported $700 in money was stolen from the house of Finch, and thought probable that the robbers became murderers to screen themselves from detection. It is also reported this morning that one of the murderers had been captured at his home with his hands yet red with the blood of his victims. It is said he was in the house washing the blood from his hands. Great excitement prevails in this section among all classes of people and earnest efforts are being made to discover the murderers, of whom there are believed to be several. The scene of the murder is about a mile from that of the famous Sumter murders, eight months ago, and eight miles from Moncure.

MEXICAN EDITORS FIGHT A DUEL.

GALVESTON, July 7.—A special dispatch to the *News* from Laredo says: "At 10 o'clock last night some twenty shots in rapid succession were heard in New Laredo. It was generally known that Jose Lopez Montalbo, editor of the *Horizonte*, a Mexican paper published in Laredo, had gone across the river about sundown, to engage in mortal combat with young Pedro Argaindini, editor of *El Bravo*, published in New Laredo. Montalbo was shot seven times and died within two hours. Argaindini was slightly wounded. Once across the abdomen and once through the right thigh. It is impossible to obtain particulars of the duel. It seems, however, that Montalbo was assailed by several parties during the fight. The editors had been indulging in violent personalities through the columns of their papers for several months."

LYNCHING IN MISSISSIPPI.

GRENADA, Miss., July 7.—This afternoon as the sheriff was going to the train with Felix Williams, who had been sentenced to the penitentiary for life, a mob of 170 persons took him from the sheriff and deputies. The mob then went to the county jail and took therefrom Perry McCristian, who was sentenced to be hanged August 1, but whose case had been appealed. Williams and McCristian in August last killed a peddler and concealed his body in the woods. The two murderers were carried a mile from town and hanged to the same limb. Williams confessed, stating that he, McCristian and three others had killed two peddlers; that he deserved death and was ready to go. McCristian died denying the crime.

HANGED.

PHILADELPHIA, July 7.—James Kane was hanged in the county prison at 10:06 this morning. The crime for which Kane was executed was committed the night of January 11, in a saloon kept by the murderer and Albert Fox. Andrew Kane, a younger brother of the prisoner, was shot in the breast. He refused to say who shot him. While there was no doubt as to the guilt of James, the cause of the shooting was not brought out at the trial, but it is generally believed that the brothers quarreled over Amanda Cross, the murderer's mistress. Both were drunk and being desperate men the murder followed.

MACKIN SENTENCED TO FIVE YEARS.

CHICAGO, July 7.—The motion for a new trial in the case of Joseph C. Mackin, charged with perjury, in connection with election frauds in the Eighteenth ward, was this morning overruled by Judge Moran, and Mackin was sentenced to five years in the state penitentiary. A stay of proceedings for fifteen days was granted, to enable Mackin's counsel to apply for a writ of supersedeas. The motion for a new trial was based upon the alleged insanity of a juror named Gray, but the court discovered nothing in the evidence offered to sustain the allegation.

A PLACE WHERE CRIME THRIVES.

NEW ORLEANS, July 7.—A special to the *Times-Democrat* from Fort Smith, Arkansas, says: Twenty-nine murderers from Indian territory are confined in the United States jail here, waiting trial. Court convened yesterday, with a criminal docket of 1[illegible] cases, all for crimes committed in Indian territory. Over 400 Indian witnesses are present to attend court, and more are expected daily. The jurisdiction of this court extends over about 62,000 square miles of territory, inhabited by men of all colors and classes, and the worst criminals in the country.

HANGED BY A MOB.

TRINITY, Texas, June 7.—James Hawthorne (colored), who attempted a criminal assault upon the 14-year-old daughter of a prominent citizen Friday night, was captured by the sheriff's posse near Lovelady Sunday morning, and placed in jail. At night, fearing that citizens would lynch the negro, the officers secreted him in the woods, and tied him to a tree. While they were gone for water the prisoner was discovered and taken by the mob and hanged, within 200 yards of the county jail, where his body was found hanging yesterday morning.

SPORTING NOTES.

NEW YORK, July 7.—Notwithstanding the threatening aspect of the weather, the attendance at Monmouth park to-day was very large. After the first race a drizzling rain began to fall, which soon became converted into a fog. This cleared off after the third race.

First race, handicap sweepstakes, mile; Pontiac won by a length, Conkling second, Herbert third, time, 1:43.

Second race, two year olds, winning allowances, three-quarters of a mile; Leitritia won by a neck, Peru Colt second, Fortuna third; time, 1:16¾.

Third race, Lorillard stakes, three year olds, one and a half miles; horses bred in the United States not eligible for this stake, unless their sires are represented by subscription to the champion stallion stakes for two year olds for 1884; won by Wanda, two lengths ahead of Pardee, who was one and a half lengths ahead of Tyrant, third; time, 2:39¾. It is estimated that $250,000 changed hands on this race. Saltpeter and Wanda were first away, but after about a furlong Saltpeter fell to fourth place, and let Brookwood go in front, when Sun Billett made a splendid race for a mile and a quarter. Wanda kept well up in second place, with Tyrant at her girths, Pardee and Bierman fourth and fifth. Coming down the back stretch Duffy called on Tyrant, but Wanda was well equal to the occasion, and moved in splendid style into first place, amidst tremendous cheering, passing the wire winner with great ease. Pardee and Tyrant made a splendid race for second place.

Fourth race, Shrewsbury handicap, winning allowances, one and a half miles; Thackeray won by half a length, Enefit second, Rica third; time, 2:39½.

Fifth race for three-year-olds and upward, selling allowances, seven-eighths mile; Felicia won by two lengths, Torpedo second, Wandering third; time, 1:29½.

Sixth race, handicap steeplechase, over short course, weights ranging from 130 to 1[illegible] pounds; Quebec, carrying 1[illegible] pounds, won by half a length, Abraham second, third not placed; time 3:[illegible]. At the water leap Revenge fell, throwing his jockey and hurting him badly. Charley Epps and Patterson fell over him, and gave up the race. Bric-a-brac at the last leap fell over the fence, her rider being knocked senseless.

THE WASHINGTON PARK RACES.

CHICAGO, July 7.—Threatening weather served to keep many people away from the races at Washington park to-day. Five thousand people were in attendance. The track was in excellent condition.

First race, one mile, for three-year-olds; Bootblack won by a length, Exile second, half a length, Anna Woodcock third; time, 1:42½.

Second race, Hyde park stakes, for two-year-old colts, six furlongs; Ban Fox won by a scant half length from Tartar, which beat Enright by a length for the place; time, 1:17¼.

George Howson of Sacramento, Cal., to-day sold the great racehorse, Jim Douglas, to Charles Johnson of Durango, Col., for the sum of $7000 cash.

Third race, selling allowances, all ages, one mile and a quarter. Starters: Doubt, Whisperine, Thady, Idle Pat, Hotbox, Wellington, Taxgatherer and Athlone. Pools: Taxgatherer $100, Whisperine $34, Doubt $33, Athlone $20, field $25. Wellington showed the way for three-quarters of a mile, when Taxgatherer went to the front. From the head of the stretch the race lay between Taxgatherer, Thady and Doubt. The former won by a nose from Doubt, Thady a close third; time, 2:10. Paris mutuals paid $7 40.

Fourth race, free handicap, sweepstakes, one mile and a furlong. Starters: Vanguard, Pearl Jennings, Jim Douglas, Loftin, Leman and Kosciusko. Pools: Pearl Jennings $100, Jim Douglas $160, Kosciusko $44, field $66. Pearl Jennings and Jim Douglas had the race between them from the start to the finish. Paris mutuals paid $9 30 and $5 80.

POLITICAL EXPRESSION.

Galveston *News*: It might be in the interest of civil service reform to reform the civil service commission.

Chicago *Inter Ocean*: Secretary Bayard wants to improve the consular service. As he is doing it, however, we conclude that he doesn't know how.

Philadelphia *Press*: The next democratic scheme is to prove that the civil service act is unconstitutional. We do not believe, however, that the United States supreme court is that kind of a body.

A direct question from Senator Logan elicited the information from Secretary Manning that it was the latter's purpose to make changes in all the collection districts and in other branches of the department just as rapidly as they can be made.

The distribution of the federal spoils in Michigan seems to have destroyed effectually the temporary harmony which existed between the democrats and greenbackers, and ended the hopes which have been built upon the partial success of fusion.

The offer of the lieutenant governorship by the democrats to the greenbackers in Iowa, if the latter would unite in one convention and on one ticket, has been refused, and the prospect of fusion between the parties is much less bright than it was.

It is announced in the news dispatches of the Boston *Herald* that President Cleveland is strongly opposed to the renomination of Governor Hill of New York, and will do all he can to prevent it. The administration is obviously reluctant to be held responsible for Hill's colossal failure.

Philadelphia *Press*: The United States senate will probably convince Secretary Manning that the removal of Director Burchard was a mistake. Col. Manning is a nice man, and he is putting the treasury department on a solid nonpareil basis of excellence, but there are some things about the business that he has yet to learn.

Congressman Reagan's widely quoted statement that there is not a democrat in the cabinet is corrected by State Senator Terrell of Texas, and Mr. Reagan is made to say: "Bayard is a democrat only in name; Garland in his views of the constitution, is not a democrat, and Lamar is at variance with the democracy on the main issues now dividing the two great parties."

Philadelphia *Press*, June 30. To-day, the end of the fiscal year, has been looked forward to through weary months by a host of democratic patriots as the date for the long promised "clean sweep." If Mr. Cleveland's broom brigade fail to begin operations to-day the spoilsmen will probably hold an indignation meeting and resolve that they have been following after false gods.
